E-FOUR ENERGY SAVING SYSTEM TEST REPORT

Van Lang University hereby confirms that it successfully tested the following:

- Equipment Name: E-FOUR Energy Saving System
- Type: 3 Phases, 4 wires, 50KVA, 380Volts, 4 Taps: +2%/0/-2%/-4%/-6%
- Code: 4EP 50 – 380 / 4T / 246
- Installation Area: Information Technology Department, Van Lang University, 7th Floor, 45 Nguyen Khac Nhu Street, Dist. 1, Ho Chi Minh City, Vietnam
- Installation Date: 22 July, 2009

TEST CONCLUSION:

We have conducted a performance analysis on the E-FOUR System. In full load circumstances, E-FOUR has improved effectively consumed power on all computer labs. We certify that E-FOUR Corporation's Energy Saving System can save a significant amount of electricity consumption.
